Personal Details

Address: In Bhadada Bagh, Bhopal Ganj, Bhilwara (Raj.)

Profile Summary

- Motivated and proactive student with a solid foundation in technology and a strong problem-solving mindset. Eager to kickstart a career across diverse industries, I bring a proactive approach to learning and a deep-seated desire to leverage my skills for innovation and success. Actively seeking opportunities to contribute to dynamic projects where I can grow under expert guidance and make a meaningful impact. With a commitment to excellence, I am ready to collaborate and drive success in any field.

Projects

E-Commerce: *visit | code*

- Developed a dynamic e-commerce platform for women's clothing using ReactJS, emphasizing a user-friendly interface and seamless shopping experience.
- Implemented a secure payment gateway utilizing Stripe for hassle-free transactions.
- Optimized the platform for performance and scalability, incorporating responsive design for various devices.
- Integrated advanced search and filtering functionalities to enhance customer experience and product discoverability.
- Utilized Redux for efficient state management and Axios for smooth API interactions.
- Facilitated dynamic product display, ensuring real-time product updates and inventory management.

Notes Management Application: *visit | code*

- Engineered a full-stack personal note management application leveraging the MERN stack (MongoDB, Express.js, React.js, Node.js) for robust data handling and seamless user experience.
- Implemented secure user authentication utilizing JWT (JSON Web Tokens) to safeguard data integrity and user privacy.
- Crafted an intuitive dashboard interface, facilitating efficient note creation, management, and organization for enhanced productivity.
- Integrated comprehensive note management features, empowering users to create, update, and delete notes effortlessly.
- Ensured a smooth and responsive user experience through a meticulously designed, interactive UI, optimized for various devices and screen sizes.

AI Tool Showcase Application: *visit | code*

- Developed a full-stack personal AI Tool showcase application utilizing the MERN stack (MongoDB, Express.js, React.js, Node.js), demonstrating proficiency in modern web development technologies.
- Designed and implemented a user-friendly interface that allows users to explore various AI tools for different use cases.
- Implemented a feature allowing users to contribute AI tool suggestions, with a review and approval process managed through a custom admin portal, highlighting the ability to develop complex application logic.
- Displayed contributor names in the footer, providing recognition for user contributions, demonstrating attention to detail and user engagement.

Achievements

- **Participated in the Hackverse'24**
  Tula's Institute, Dehradun
- **Participated in the Hacker Rank**
  MLV Textile and Engineering College, Bhilwara
- **Led the student coordinating committee for the Engineering Day Event**
  Sangam University, Bhilwara
